Save weeks of downtime each year

The need for highly accurate wellbore placement is crucial to any project's bottom line. Avoid downtime and freight costs by calibrating your tools on-site in a few hours. Portable in design, set up your calibration workspace anywhere.

Be prepared for audits with superior quality control

Keep quality control in-house and deliver accurate results every time. With the SPT Calibration Stand your team will become autonomous and increase margins while minimizing wait times. Easily generate pdf certificates after calibration and be fully prepared for any audit.

Specialized technology developed for the industry

We keep all our development and production in-house to ensure the most technologically advanced products for our customers. We don't outsource and hope for success, we build internally and expect it.
