# MagCruiser™

High performance, affordable  
magnetic survey tool

Intuitive handheld  
device allows for  
simple data collection

# MagCruiser™

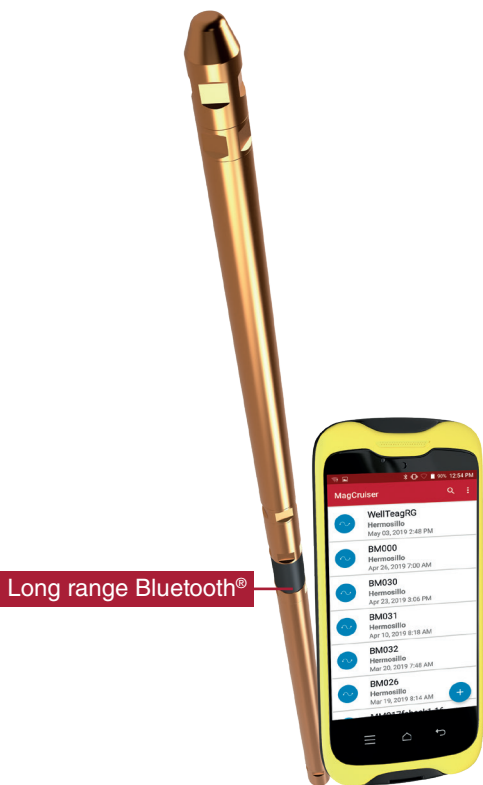

## Technical specifications

Performance		Equipment	
Inclination accuracy	± 0.05° *	Temperature range	-20°C to 60°C (-4°F to 140°F)
Azimuth accuracy	± 0.3° *	Pressure range	5670psi (4000mH2O)
Toolface accuracy	± 0.2°	Diameter	35mm (1.38")
Magnetic dip angle	± 0.2°	Length	1000mm (39.37")
Magnetic field accuracy	± 70nT	Weight	6kg (13.2lbs)
Measurement range	-90° to +90° de inclinación	Handheld device	IP67, heavy duty, easy to use

\* Quoted at 3 sigma (99.7% assurance)

Software		Well profiles	
Export format	PDF, Excel, CSV, LAS, DXF	Vertical	Applicable
Survey report	Generate at any interval	Inclined	Applicable
Graphic generation	2D, 3D	Directional drilling	Applicable
Bluetooth®	High-speed connection	River crossing (HDD)	Applicable

### Easily capture high quality data

The *MagCruiser™* has a simple software interface that has been designed for a comfortable user experience. Operators will feel confident programming and retrieving data with our intuitive handheld device.

### Simple to use with accurate results

Proven in the harshest non-magnetic mining conditions, our *MagCruiser™* technology offers top performance at affordable rates. Our magnetic surveying instrument works in all inclinations and automatically generate reports at any interval.

### Affordable survey option for low cost projects

SPT has created the most advanced quality control system in the industry. Our calibration equipment ensures that you maintain complete accuracy throughout your project and reduce overall downtime.
