SPT
SmartCloud™

Cloud platform for survey data
sharing and management

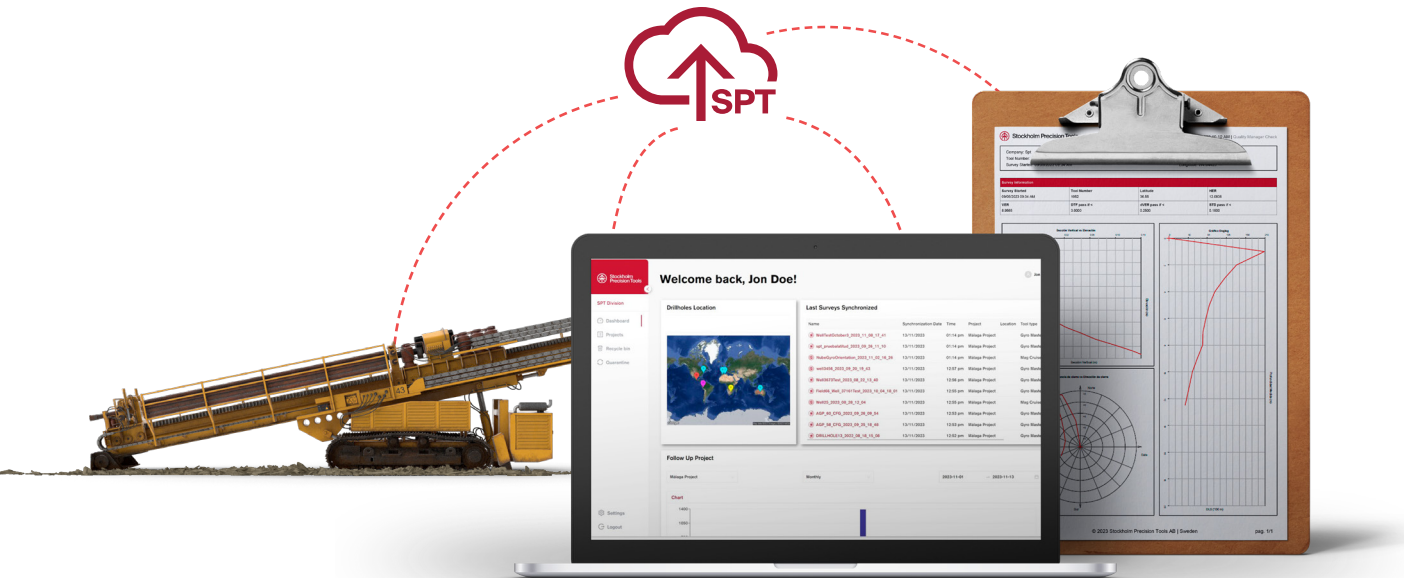

Set specific team role
permissions for storing
and handling survey
data in the cloud

SPT SmartCloud™

Specifications

Ensure survey data's secure arrival, access, and integrity for swift decision-making

Improved Borehole Survey Operations

- > With SmartCloud™, easily set up projects and drillholes for enhanced survey data management.
- > Share specific project or drillhole survey data with third parties, controlling access through password and time limits.

Instant, Secure Data Integration

- > Lowers the risk of workflow mistakes.
- > Compatible across all SPT instruments.

Data Insight & Decision Support Optimization

- > Integrates global cloud control, borehole planning permissions, logging, and automatic QC.
- > Allows unit system customization for intuitive team data analysis.

Survey Data Access From Anytime Anywhere

- > From simple reports to advanced planning remotely. All essential data readily available.
- > Safely monitor drilling activities from anywhere.
